*Preface*

vii

1. Autonomous Chua's Circuit: Classical and New Design Aspects	1
1.1 The Nonlinear Resistor Concept and Chua's Diode .....	2
1.2 Circuit Topologies for Realization of Chua's Diode .....	6
1.3 Circuit Topologies for an Inductorless Chua's Circuit .....	17
1.4 Alternative Hybrid Realizations of Chua's Circuit .....	20
1.4.1 Hybrid-I realization of Chua's circuit .....	21
1.4.2 Hybrid-II realization of Chua's circuit .....	21
1.4.3 Hybrid-III realization of Chua's circuit .....	24
1.4.4 Hybrid-IV realization of Chua's circuit .....	25
1.4.5 Hybrid-V realization of Chua's circuit .....	27
1.4.6 Hybrid-VI realization of Chua's circuit .....	27
1.4.7 Hybrid-VII realization of Chua's circuit .....	29
1.5 Experimental Setup of CFOA-Based Inductorless Chua's Circuit .....	32
1.5.1 Experimental results .....	32
2. Numerical Simulation and Modeling of Chua's Circuit	40
2.1 Numerical Simulations of Chua's Circuit .....	41
2.2 Simulation and Modeling of Chua's Circuit in SIMULINK .....	44
3. Programmable and Reconfigurable Implementations of Chua's Circuit Model	55
3.1 FPAA: General Concepts and Design Approach .....	56
3.2 FPAA-Based Implementations of Chua's Circuit Model .....	61
3.2.1 FPAA-based Chua's circuit model-I .....	62
3.2.2 FPAA-based Chua's circuit model-II .....	63

3.2.3	FPAA-based Chua's circuit model-III .....	68
3.2.4	FPAA-based Chua's circuit model-IV .....	69
4.	Mixed-Mode Chaotic Circuit (MMCC): A Versatile Chaotic Circuit Utilizing Autonomous and Nonautonomous Chua's Circuits	73
4.1	Design Procedure of Mixed-Mode Chaotic Circuit .....	73
4.2	Improved Realizations of the MMCC .....	79
4.2.1	FTFN-based MMCC .....	80
4.2.2	CFOA-based MMCC .....	81
4.2.2.1	Experimental results .....	84
4.2.3	Wien bridge-based MMCC .....	89
4.2.3.1	Experimental results .....	91
5.	Experimental Modifications of Chua's Circuits .....	95
5.1	Experimental Modifications of Autonomous and Nonautonomous Chua's Circuits .....	95
5.1.1	Simulation results of modified Chua's circuits .....	97
5.1.2	Experimental results of modified Chua's circuits .....	100
5.2	A New Nonautonomous Version of VOA-Based Chua's Circuit ....	103
5.2.1	Simulation results and experimental observations .....	105
5.3	Experimental Modification of MMCC .....	111
5.3.1	Experimental results .....	112
6.	Some Interesting Synchronization Applications of Chua's Circuits .....	115
6.1	An Analog Communication System Using MMCC .....	115
6.1.1	Simulation results .....	119
6.2	Chaotic Switching System Using MMCC .....	119
6.2.1	Simulation results .....	123
6.3	Chaos Synchronization in SC-CNN-Based Circuit and an Interesting Investigation: Can an SC-CNN-Based Circuit Behave Synchronously with the Original Chua's Circuit? .....	125
6.3.1	SC-CNN-based circuit .....	126
6.3.2	Continuous synchronization of SC-CNN-based circuits .....	128
6.3.3	Can an SC-CNN-based circuit behave synchronously with the original Chua's circuit? .....	134
6.4	Chaotic Masking System with Feedback Algorithm via SC-CNN-Based Circuit .....	139
6.4.1	Simulation results .....	145

6.5	Impulsive Synchronization Studies Using SC-CNN-Based Circuit and Chua's Circuit .....	150
6.5.1	Impulsive synchronization of chaotic circuits .....	150
6.5.2	Impulsive synchronization of SC-CNN-based circuits .....	152
6.5.2.1	Impulsive synchronization via $x_1$ between two SC-CNN-based circuits .....	153
6.5.2.2	Impulsive synchronization via $x_2$ between two SC-CNN-based circuits .....	157
6.5.3	Impulsive synchronization between SC-CNN-based circuit and Chua's circuit .....	162
6.5.4	Experimental scheme for impulsive synchronization of two MMCCs .....	166
6.5.4.1	Experimental results .....	167
7.	A Laboratory Tool for Studying Chua's Circuits .....	173
7.1	Introduction .....	173
7.2	Description of the Laboratory Tool .....	174
7.3	Experimental Studies with the Work-Board .....	182
7.3.1	Experimental measurement of $v$ - $i$ characteristics of VOA-based and CFOA-based nonlinear resistors on the training board .....	182
7.3.2	Investigation of autonomous chaotic dynamics via training board .....	184
7.3.3	Investigation of nonautonomous chaotic dynamics via training board .....	187
7.3.4	Investigation of mixed-mode chaotic dynamics via training board .....	190
	<i>Bibliography</i> .....	193
	<i>Index</i> .....	203
